

Press Release

Olah Design Group celebrates Recognition at the 2025 International Architecture & Design Awards

Marietta, GA – June 11, 2025 — The International Architecture & Design Awards (IADA), organised by the Architecture & Design Community (ADC), has announced the winners of its 2025 edition. With more than 300 shortlisted entries from over 45 countries, IADA continues to highlight the very best in contemporary architecture and design.

This year, Olah Design Group received the Bronze award in the Private Residence Design category for the outstanding project Custom Residence Atlanta. This honour reflects a strong commitment to creative excellence and innovation in the built environment.

Esteemed Jury Panel

Each submission was carefully reviewed by a distinguished international jury, composed of professionals known for their creativity, rigour, and contributions to the global design dialogue.

The 2025 panel includes: Frederick Rickmann – DNgroup, STEENSSEN Aps, DNDC, AFR Thinking Urbans (Denmark) | Larry Lim – Anchor Agency (Singapore) / Yuting Zhang – Studio RE+N (China) | Daryl Villanueva – Bandit9 Motors (Viet Nam) | Paul Wiseman – The Wiseman Group (USA) | Xiaobi (Iris) Pan – Amazon (USA) | Alberto Dias Ribeiro – A2OFFICE (Portugal) | Jiaru Lin – KMC Corp (USA) | Gloria Cabral – STUDIO 4.4 (Brazil/Paraguay) | Serhii Makhno – Makhno Studio (Ukraine)

Their combined expertise ensures that each project is evaluated with care, insight, and respect for both originality and impact.

About IADA

The International Architecture & Design Awards is an annual global competition dedicated to recognising outstanding talent across architecture, interior design, product and communication design, web, landscape, and other related fields. Organised by the Architecture & Design Community (ADC), IADA is committed to nurturing originality, rewarding excellence, and promoting a better future through thoughtful design.

ADC is a worldwide network of architects and designers working toward a shared vision: balancing human needs with environmental responsibility. The organisation prioritises eco-conscious practices and champions the thoughtful integration of technology into spaces that shape how we live and interact.
